PLEASE RETURN TO
 ENGINEERING DIVISION

Director of Communications

(Contract RD-103, Task Order 8 - [redacted])

25X1

1. The Office of Communications has a requirement for the development of an Automatic Data Telemetering System, AS-6. A study program was initiated with the subject contractor under Task 4 in order to investigate possible techniques to be employed in this system. The study has indicated the feasibility of this equipment and a proposal to design and fabricate a prototype field unit and base station has been received from the [redacted]

25X1

2. The technical proposal and estimated cost breakdown have been evaluated and are considered satisfactory. This company is well qualified to perform this work since the concepts and techniques to be employed in the AS-6 system were originally developed by the [redacted]

25X1

3. A task type contract, RD-103, is presently in effect with this company. It is requested that Task Order 8 be negotiated with the [redacted] under this contract in accordance with the attached proposal and cost breakdown for the performance of this work. Attached for this purpose is Requisition No. MSB 58-288 indicating the availability of funds in the amount of \$1,322,221.00 chargeable to Allotment No. 8/7995-50. The classification of the AS-6 equipment and reports as well as the association of the contract with the Agency is to be [redacted]. The project engineer will [redacted]
